Today the Pharmaceutical Group of the European Union has elected Mr Duarte Santos, Member of the Board of the Portuguese Pharmacy Association (ANF), as PGEU President for 2020, at its General Assembly meeting in Kraków, Poland.

In his acceptance speech Mr. Santos stressed: *"I'm truly honoured to have been appointed as PGEU President 2020. Pharmacy practice is rapidly evolving and shifting the focus from dispensing medicines to advanced patient care and innovative services. It is the role of PGEU to support members through this change by serving as platform to share best practices and by collecting robust evidence on the added value of pharmacy services for health care systems.*

*I will also make sure PGEU will provide all community pharmacists across Europe the necessary tools to address the many challenges and opportunities the pharmacy sector is currently facing, including medicines shortages, digitalisation, Big Data, the implementation of the falsified medicines legislation and of the new EU Regulations on medical devices and veterinary medicines. I will also ensure PGEU continues striving for interprofessional collaboration working closely with other EU health professionals' organizations.*

In May 2013, Duarte became a member of the board of ANF and has held several management functions of different departments and projects. International representation of ANF and the institutional relations with the Academy and the Student’s Associations, are also part of his responsibilities at ANF. Since 2014 Duarte is an invited professor at the Faculty of Pharmacy of the University of Lisbon. He is about to obtain an MBA at AESE Business School in Lisbon.
